in vain for me. The aroma and beauty of the flowers, the picturesque landscape, and the kindness of the conductor would not allow me to leave the train. But I was to go on an errand by which I would come into possession of a vast inheritance I might walk to New York and everything would be joyful. I would count the minutes of my journey, and I would not care if I missed my dinner. I would go cheerfully. Brother, I am on a good errand—a soul-saving errand, and my pathway will end in a blissful state.

Many of the good things of this life are not to be had for nothing. They are to be had for a price. The price is not money, but it is something else. It is the price of a good conscience, a clear mind, and a pure heart. It is the price of a life that is lived for God and for the good of the world.

On Saturday, April 10th, we will place on sale the finest uncolored Japan tea ever sold in Janesville, at 50 cents per pound. This is an early May tea and cannot be duplicated, and is well worth a trial. In order to thoroughly advertise it, we will on that day only, give to each purchaser of one pound or more of this tea, or of any of our other grades of tea, 50 cents of over, and elegant china fruit plates. These plates are hand painted and are alone worth one half the price of the tea, and are well worth securing. Remember this is for one day only, Saturday, April 10th.

The China Tea Co.
West Milwaukee St.

Canned goods sale.
YANKIRK Bros.
Try our new Compressed Yeast, one cent per cake, at C. O. D. store.

Ho! hello! Give the "East End" a show, their stock of goods is the boss you'll know. Just give them a trial there'll be no denial. They have not started this thing for a blow. No "dodgers" you'll find of deceitful kind. And don't you forget it, you'll never regret it. Their goods and their price will open the eyes of the whole country round, enthrone the sound, the best place in town kept by Breco & Brown.

We would judge from the great crowds attending McKee's great closing out sale that they are giving genuine bargains.

Everybody go to the canned goods sale YANKIRK Bros.

Compressed yeast only one cent per cake at the C. O. D. store.

Genuine value for your money at McKee's.

Delay your new carpets no longer! The bottom has fallen out of prices! Now is the time to buy! Our assortment commands the attention of purchasers. J. M. Bostwick & Sons.

Would respectfully ask the ladies to step in and look at our black gros grain silk at McKee's.

Gibson's imported fruit tablets in all the most delicious flavors. Imported fruit waters, French chocolates, creams and candied fruit for sale at Gelling's.

For Supervisor—PAUL RUDDOLPH.

For Constable—J. R. BLEASDALE.

BRIEFING.

—City election to-morrow.

—Vote the straight republican ticket.

—The cotton mills started up to-day.

—Polo to-night—last appearance of the Muncies.

—Regular meeting of the common council this evening.

—Mr. and Mrs. E. V. Whitons little son Ned is seriously sick with pneumonia.

—G. W. Fenn, of Oenker, who was dangerously ill with pneumonia, is now convalescent.

—Crystal Temple of Honor No. 33, assemble in regular weekly session this evening at their hall in the Judd block, North Main street.

—The Muncie polo team play their third game here to-night, and each team having won a game, both will do their level best to win to-night. Thursday the Oshkosh league team play here.

—Mandal White and a man by the name of Lawler were the principals in a spirited wrestling match Saturday night. Randall came out ahead and his friends now stand ready to back him against any man within ten miles of the city.

—The Washington street polo team entertained the first ward boys in a game at the rink, Saturday. The Washington street team was the strongest and won the game by a score of 3 to 0 in two minutes and thirty-five seconds.

—The Woman's Foreign Mission circle of Court Street church, will meet at the home of Mrs. M. M. Phelps, on Wednesday, April 7th, at 3:30 o'clock p. m. The business to be transacted demands the prompt attention of every member of the circle.

—Vote for the republican candidates for constable in each ward: E. Cone, for First Ward; A. K. Cutts, for Second Ward; A. W. Parker, for Third Ward; John F. Drake, for Fourth Ward; J. R. Bleasdale for the Fifth Ward. They are good men, and will faithfully serve the people if elected.

—Speaking about rings, can the Recorder discover in the republican candidates anything which tends to throw the affairs of our city government into the hands of any one family? Should the democracy be successful we are inclined to believe that it would be a "family" affair.

—"Sam" of Pozen on the Road" proved a very fair drawing card at the opera house Saturday night. Mr. M. B. Curtis as "Sam" was, of course, the center of attraction and his work was highly praised but most of his support was poor. Mrs. Curtis as "Horace" and Miss Carrie Granville as "Marie" were the only redeeming features; the former showing much talent, while Miss Granville proved herself to be a very clever soubrette.

—Mr. H. D. Stewart, an old pioneer of Brodhead, Green county, died in that village at three o'clock this morning and will be buried on Wednesday at one o'clock in the afternoon. Mr. Stewart took an active part in the building of Brodhead, and constructed the roadway from Sugar river into that village, besides making many other improvements for the benefit of the town. He was a cousin of Mr. H. A. Doty, of this city, and has many other relatives in this vicinity.

—The Recorder, in its attempt to bolster up an incompetent candidate of its party, chooses to bring up the "residence" dodge against the republican candidate for school commissioner in the Fourth Ward, at the same time forgetting that the democratic candidate for supervisor, should a thirty days residence be enforced, could hardly claim the right to vote. Dr. Judd has long been a resident of Janesville, and has resided in the fourth ward for five months or more. The duration of his residence will hardly be considered by those who wish a capable man elected to the office of school commissioner, one who will not need the certificate of a colleague as evidence that he possesses ability and who will not mistake a register for a refrigerator.

—Yesterday afternoon at two o'clock the funeral services of the late Walter Turner were held from the home of his mother in the second ward. There were many present, for the deceased was a young man of many noble qualities. His untimely death is greatly regretted and his mother will receive the sympathy of all. The services were conducted by the Rev. Mr. Brown of the Presbyterian church. His remarks were well fitted for the occasion and his tribute to the memory of the deceased was a touching one.

The remains were taken to Mount Zion for burial.

—The indications are that Mr. C. L. Valentine, the candidate for school commissioner in the Second Ward, will be elected by a large majority. Mr. Valentine has had several years' experience as a member of the board of education, and as such has never attempted to cripple the public schools by crowding to the front with his personal friends or schemes. Mr. Valentine will work for the best interests of the public schools, regardless of his personal views. He is a man who keeps posted on current events, and is therefore competent to act on public matters of the day, rather than occupy the time by fruitless endeavors to put the schools on a basis of twenty-years ago.

—The favored few who happened along by the Rock county bank early this morning were treated to a somewhat sensational natural exhibition. The one who was sacrificing himself for the public amusement was a clerk in an east side insurance office. He was emptying a pan of ashes on the river bank, when the light rapping on which he leaned gave away throwing him full length into the water. It was excessively damp and evidently very chilly, but he stuck to the ash pan and using that for a life preserver he soon gained the shore. When he reached the office he held a full dress reception, receiving all kinds of old clothes, from a pair of blonde overalls to an old straw hat that had once been a home for a litter of kittens. In the course of half an hour he was as lumpy as though water-soaked wrinkles of care had never found a lodging place on his countenance. He says, however that, to be frank, if the performance is to be repeated he prefers to take tickets at the door, while some one else covers himself with glory and wet ashes.

—Our democratic friends are to be commended for the wild and varied statements they make in opposing any proposition for the benefit of the city. For instance, Mr. Anson Rogers, during his remarks at the democratic convention on Saturday evening stated that should water works be built in this city the "times would be doubled". The people are now called upon to raise—in round numbers—\$50,000, this sum being only eleven mills on a dollar of the assessed valuation. Our water works expenditures are limited by law to \$115,000, but put it at the highest figures of the opponents—\$200,000,—with a doubled tax the debt could be paid in four years. But no sane man will for a moment consider such nonsense. The water-works, if built at all, should be built during dry times, when labor is idle, and with the present rate of taxation, the works could be paid in fifteen years—\$10,000 a year. This sum we have been paying for some years, and we believe this year will cancel all our outstanding bonds, so that with the same rate of taxation, the works could be built and paid for, and the people would not be overburdened. Yes, Mr. Rogers, you make a wild statement when you assert that our taxes would be doubled should the city build water works, a statement that will not bear repeating upon paper.

—Rev. Dr. Conover presided yesterday in Trinity church on "Man and Church Attendance". The doctor handled his subject in a masterly way. He uttered a lamentation on the non-attendance of men at church and named many of the apocryphal excuses made by many for not going, such as, lack of ability and interest in the pulpit, a lack of novelty and attraction. He answered most satisfactorily these and other excuses framed and stated that most men looked on church going as they did play or an amusement. If the attractions were such as to be out of the usual course of church worship there, the crowd who never went to church would attend in large numbers, such for instance as Moody, Harrison and Jones, people attended their meetings from curiosity, while the church presenting the forms of worship established for ages was neglected. We could not help thinking how true were the statements of this faithful minister when he looked about the church and saw two thirds of the sittings vacant. The eloquent divine very pathetically in closing laid the real cause of non-attendance to the depravity and sinfulness of the human heart. It does after all seem strange that a service so beautiful and finished should receive so little attention in this community. Trinity is a beautiful church in all its appointments and its rector is commanding and eloquent in his utterances. The church ought to be full at every service.

—Offensive breath vanishes with the use of Dr. Sego's Catarrh Remedy.

THE MUNCIE BEATEN.

The polo game Saturday night resulted in a victory for Janesville. The visitors started in just as on the night before playing a weak game. The first goal was made by Bacon, he carrying the ball almost to the Muncie cage and tossing it skillfully over the line. Time 3:06.

The second goal was also short and most of the work was done at the Muncie end. Bacon and Buchanan showed much skill in their attacks on the cage and their tactics finally won, Buchanan driving the ball safely into the net after two minutes and a quarter of sharp play.

The Muncies now began to show more life, Kirk, especially being loudly cheered. He carried the ball from one end of the floor to the other several times, Ridgely and Brown doing excellently in keeping it out of the cage, but at last Schuster made one of his powerful drives for goal, and scored the first and only point for the team. Time 10:47.

It was evident that the visitors were steadily gaining strength just as in the first game, and some doubt was expressed as to the results. But the Riveristas were also on their mettle, and in four minutes and forty-two seconds more, the ball was lying in the Muncie cage, put there by a skillful play of Buchanan. The total playing time was 20:47.

FIFTH WARD.

The Republican Ward Committee for the Fifth Ward, held a meeting on Saturday evening, and placed in nomination the following ticket:

For Alderman—George Kastner.

For Supervisor—Paul Rudolph.

For Constable—J. R. Bleasdale.

Sea Side, broche, canvas and serge wool suitings, in cream and white, at Bro, Bailey & Co's.

WATER WORKS.

A Plain Statement of the Question at Issue.

At the Third Ward democratic caucus held last week a motion was made and carried that the construction of water works should be deferred for a year or more and this sentiment was endorsed by the democratic convention on Saturday evening.

Now, if this motion was made for the purpose of expressing a belief that there should be no unseasonably haste in so important a matter, then we concur; but if it was made for the purpose of creating an impression among our citizens that our people have changed their recently expressed opinion on this matter, then we desire to dissent.

Last fall a petition was very generally signed by the tax payers asking the common council to provide this city with water works and the petitioners also expressed a willingness that the water works should be built by private enterprise. During the time that such petition was circulated the matter of water works was very generally discussed on the streets and in the papers, letters were received from other cities, delegations of our citizens visited other cities. The result of this agitation was to create a belief that if we had water works at all they should be built and owned by the city. Accordingly when the common council acted in the matter it directed that a petition should be circulated as provided by our charter. That petition was cheerfully signed by a good majority of the tax payers of the city. The petition duly verified is now on file, and is the first step towards building water works by the city. Having that as a foundation, the council ordered an election of five water commissioners to build the works. It is an insult to good faith and intelligence of the one thousand petitioners to nominate men for commissioners who are disinclined to perform the duties of the office.

The question is not now water works or not; it is, "Who are the best men to carry out the duly expressed wishes of a majority of the tax payers?" It is urged in defence of this unfair action, that some of the petitioners have changed their minds since signing the petition. That if true, is the excuse for doing; moreover, there is no evidence that such is the fact.

On the contrary we believe that a still larger majority than ever are in favor of water works, and that the sentiment daily increases that the city should erect and own the works. Since we first began to discuss this question fifteen years ago, all the cities around us have adopted water works—Madison, Oshkosh, Green Bay, Racine, Beloit and Stoughton, as well as hundreds of cities in the northwest; in fact we are almost the only city of 10,000 people in the country which is without water works. Not a city or town can be found in the United States, which has once enjoyed the benefits of a supply of pure water, as furnished by a good system of water works, could be induced to part with it. Now is the time to build—we have dozens of men seeking employment, money is cheap in the large cities, bonds can be sold at high prices, but more than else we need better fire protection and we need wholesome water in our hotels and dwellings.

The question has been fairly presented and the people have decided, now let us elect good men who are in favor of the enterprise and have done with it.

The weak-kneed doubting ones have suffered long enough.

Water Commissioners.

The republicans of Janesville could not make better nominations for water commissioners; the entire board are old residents and men of ability—in the very prime of life, among whom will be found John Watson, who is the best man for such an office to be found in the city.

Mr. Watson's position on water works is as follows: Personally he is opposed to bonding the city, and has been from the first, but he will defer to the judgment of the board of commissioners and the expressed wish of a majority of the tax payers. This conservative principle will aid the board in working for the best interests of the city.

His colleagues, J. A. Deniston, of the First Ward, B. B. Eldredge of the Third Ward, M. M. Phelps of the Fourth Ward and J. G. Wray of the Fifth Ward, are all men of unquestioned integrity and capacity to faithfully conduct such a public work.

It is reported that Mr. M. M. Phelps is not in sympathy with the water works enterprise. This report was undoubtedly started by the opposition who hope to see the defeat of Mr. Phelps. This gentleman stands on no uncertain ground in regard to water-works. He signed the first petition favoring the establishment of the water-works last system, and has not changed his views since that time. Aside from this point Mr. Phelps is one of these prudent, cool headed, reliable men that dignify any office they are called to fill. His judgment is never warped by prejudice, and his own interests are never made paramount to those of the city.

Personal.

—Mr. and Mrs. Hogan, of Elgin, Ill., are guests of Mr. and Mrs. H. D. McKinstry.

—Mrs. C. R. Wheeler and her daughter Miss Kate Wheeler, started this noon for a six months visit with relatives in California.

—John Menzies, clerk of the municipal court, was called to Chicago this morning by the sudden illness of his brother, Dr. Hugh Menzies, in that city.

—Miss Fannie Woodruff, daughter of Mr. E. S. Woodruff, of the first ward, goes to Rockford to-morrow and will begin a course of study at the seminary of that city.

Dr. Twing Wiggin starts to-morrow for New York where he will take a post-graduate course in the New York Polytechnic Medical College. He will be absent about three months.

The best on earth can be truly said of Griggs' Glycerine salve, which is a sure and speedy cure for cuts, bruises, scalds, burns, wounds and all other sores. Will positively cure piles, tetter, and all skin eruptions. Try this wonderful healer. Satisfaction guaranteed or money refunded. 25 cents. Druggists.

THE CITY TICKET.

Why the Republican Candidate Should be Elected.

The city republican convention put in nomination for city office excellent men who are thoroughly worthy of the united support of their party friends in Janesville. The convention did itself the honor of naming for city officials four men who are above criticism from every possible point of view. Mr. Murphy, who has been nominated for city treasurer, is one of the most competent young business men in this city. In his whole make-up he has not a single weakness. He is thoroughly reliable, unflinchingly honest, exceedingly gentlemanly, is popular in his intercourse with his fellow citizens, and besides that he is one of the best accountants in Janesville. His qualifications for the office of treasurer are so prominent that he should receive the entire vote of his party. Let this be done as he will be elected by a large majority.

The convention also did a wise thing in nominating Mr. Charles E. Pierce for city attorney. Among all the young men of the Janesville bar, there is not found a more worthy or promising one than he. He has taken quite a prominent position at the bar for some time, and continues to grow in the confidence of the public. He is not only a lawyer of "promise," but he is in fact a man of broad legal attainments, energetic in his profession and successful in practice. The legal matters of the city would fall in excellent hands were Mr. Pierce elected to the responsible office of city attorney.

Mr. John Nichols, who has been nominated for justice of the peace, is one of the best known professional men in the city. The office of justice is quite an important one, and Mr. Nichols would fill the position with credit to himself and an honor to the city.

Dr. L. E. Loomis is on the ticket for school commissioner at large. The very best men in the city should be elected to the board of education, for the educational interests of the city, which are all important, are intrusted to their hands. Dr. Loomis is thoroughly competent to fill the office. He not only would bring to the position of commissioner a broad intelligence but an unlagging interest in the schools of the city. Just such men are needed on the board of education, and we trust the people will see that he is elected.

At the head of the republican city ticket, "For city treasurer" appears the name of Michael Murphy, a gentleman who needs no introduction or word of commendation through the columns of the Gazette with which he has been connected from boyhood. (Mr. Murphy, familiarly known as "Mike," possesses the rare qualities of mind and heart which win popular favor and command the confidence and respect of the entire community. A man not only self made and self-reliant but endowed with generous impulses, prompting deeds of thoughtful kindness, which characterized his early life as a model boy, and having much to do with his reputation as a whole souled man.

Mr. Murphy is thoroughly qualified to fill the office of city treasurer and if elected his constituency will have no occasion to regret the honor conferred upon him. Mike's smiling countenance over the "horse stable" on River street, would help to counteract the odors of the place and bring joy to the heart of the tax payers.

Party Lines.

There is no disguising the fact that in the municipal election to-morrow the party lines will be distinctly drawn and the merits of the contending parties thoroughly tested. That the democracy will be out en masse is not questioned, whether the republicans will be as zealous, remains to be determined. If as a party we appreciate the situation, we are able to "go up and possess the land".

The republican nominees are, without exception, men who merit the united support of the party. Let every republican elector in the city see to it that his vote is deposited for the straight ticket.

Don't stay away from the polls on the plea that you have no interest in politics. Every citizen should have an interest in municipal government. As republicans let us show our party loyalty by throwing off the lethargy with which we are too often enveloped.

"Whom the gods love die young," says Byron, but why die young, you can cure the cold or cough which neglected means death, with Dr. Bull's Cough Syrup, the old reliable!

A sensible woman will not fail to keep a bottle of Salvation Oil on hand for men's cuts or bruises.

The Weather.

At seven o'clock yesterday morning the thermometer indicated 13 degrees above zero. Clear with north wind. At one o'clock p. m. the register was 40 degrees above zero. Clear with north wind. For the corresponding hours last year the register was 27 and 44 degrees above zero. At seven o'clock this morning the thermometer indicated 10 degrees above zero. Clear with north wind. At one o'clock p. m. the register was 50 degrees above zero. Clear with north wind. For the corresponding hours one year ago the register was 40 and 65 degrees above zero.

Destines.

Appreciating the kind expression of the republican city convention in placing my name upon the ticket as a candidate for justice of the peace, and thanking them for the courtesy, I would respectfully decline the honor proposed.

H. A. PATTERSON.

The Baby is Responsible.

In the republican city convention last Saturday afternoon it was suggested that a candidate for the office of school commissioner at large should be a man of family, and the question was asked whether Dr. E. E. Loomis, the successful candidate, would be able to qualify. A neighbor of the doctor's came to the rescue and said that the youngest son in the family was either five months or five years old, he didn't know which. "A baby in the house is a well spring of joy," Dr. Loomis possesses the baby, and all the other qualifications for a first class school commissioner. He will be an honor to the board if elected, even though a resident of the "hot-bed of intrigue."

All kinds of harness, blankets and lap robes, at James A. Fathner's.

FINE WORK.

The democratic organ is just now engaged in grinding out a medley of nonsense and burlesque to the tune of "Fine Work" which it attributes to the republican party. To the distorted vision of the "midnight owl" the opposing party comes up as a band of pirates, eager for an opportunity to swoop down upon the unsuspecting city some starry night and capture all that is valuable in property or character.

The residents of the first ward will appreciate the compliment contained in the following editorial paragraph which appeared in the last issue of the Recorder:

"There's the first ward, for instance, a perfect hot-bed of intrigue and fine dealing. Suppose we keep our eyes open in this ward; depend upon it there's business on hand for those who have life interests which they do not care to fritter away."

This kind of nonsense, which is commonly denominated "mud," is the stock in trade of the democratic party. The Gazette would respectfully suggest that a mad machine of more than ordinary capacity, is necessary to tarnish the reputation, character and loyalty of a ward so thoroughly known as the one at which the thing is directed.

There are several people scattered through the various wards of the city who own their homes and a reasonable amount of property besides; some of these people are so unfortunate as
